

# Recession Fighter!

With **DOUBLE K**™ in your corner you can handle any grooming challenge

I have owned a kennel for many years and raise poodles. I have tried many different shampoos and have not found any that I was totally satisfied with. I received a sample of **GRIMEINATOR**® with a new **CHALLENGAIR**™ Dryer. I had an occasion to use this shampoo on two of my dogs that were the most messed up dogs that I have ever had to bathe, and I honestly could not believe how good this new shampoo worked! The shampoo lathered exceptionally well and removed all of the dirt from the poodle's coat and at the same time it seemed to be very gentle on my hands. The dogs were exceptionally clean and smelled good. The **GRIMEINATOR**® shampoo made an excellent lather and washed out easily. I was so impressed that when I came back in to my house I told my husband that I really thought that this was the "BEST" shampoo that I have ever used and I was so impressed with the shampoo that I immediately ordered a gallon of each of their products.

- Carolyn Earnest, Owner, Love Paws Poodles

A customer came in with his badly matted dog and was emphatic the dog not be shaved. I decided to use my sample of **THE SOLUTION**™ and I was able to dematt the hair without shaving! I was very impressed, but decided to reserve judgement until the dog came in for his next grooming. I felt confident his hair would be even more matted since **THE SOLUTION**™ probably softened his hair. To my surprise the dog's hair was in extremely good condition! We now use **THE SOLUTION**™ on everything snarled and matted. I am totally sold on this wonderful product! I know it will enhance my grooming skills and please my customers. Thank you for such a great product!
